## SKILLS

- **FRONTEND DEVELOPMENT** | HTML, CSS, JavaScript, React.js, Bootstrap, Tailwind CSS
  - **BACKEND DEVELOPMENT** | Nodejs, Express JS
  - **MISCELLANEOUS** | C/C++, Java, MongoDB, ServiceNow Developer, ServiceNow Administrator, Firebase, Git/GitHub
  - **SOFT SKILLS** | Team Work, Good Communications Skills
- 

## PROJECTS

### Project 1

#### AI-enabled Mental health assessment system

- This project was presented at the **Smart India Hackathon 2022**. It is a web application with **React** for frontend, **Firebase** for backend, and integrated **machine learning** model for automated mental health assessment of children.
- Developed a login page with validation using **HTML**, **CSS**, and **JavaScript** to allow access only to authorized users. Configured **MongoDB** and Mongoose for user authentication.
- The system enables timely mental health interventions for children based on ML model assessments. React and Firebase allows the creation of a scalable and secure application.
- **GitHub:** <https://github.com/Astro3321/greenwood>

### Project 2

#### BeatBox- Web Player Music Application

- Developed a music streaming web app called BeatBox with features like playlists, songs, playback, etc using **HTML**, **CSS**, and **JavaScript**.
- Implemented the UI components like sidebar, cards, playback bar, etc using HTML, CSS grid, and flexbox. Added interactivity and logic using JavaScript.
- Allows users to stream music online seamlessly across devices. Utilizes the latest web technologies for responsive and interactive UI. Can be extended to add more features like playlists, share, etc.
- **Website Link:** <https://beatboxx.freewebhostmost.com/>

### Project 3

#### Portfolio Website

- Portfolio website where there is a section for my work where I have mentioned more than 5+ good projects made with a technology like **HTML/CSS**, **JavaScript**, **React.js**, **node**, **Express**, **Bootstrap**, **Tailwind CSS**, **Firebase** etc.
